## **PILAR CABRAL MAJEROVIĆ**

*BUSINESS COACH*

Pilar is an executive business and team coach, coaching trainer, mentor, and leadership lecturer. She is an Erickson International certified coach and is PCC accredited by the International Coaching Federation (ICF). Prior to moving into executive coaching and leadership facilitation, Pilar worked for 20+ years in the corporate sector, mainly in the field of telecommunications and hospitality, where she held various management positions.

For her, purpose comes from within each of us; it's something that can't be imposed or mandated from the outside. At the same time, it compels us to move outside to engage with the world around us.

Her purpose in the past few years has been to bring and create meaningful conversations around emotions in the corporate world, in other words, to unlock emotions in the business world.

### **WHAT CAN YOU EXPECT AT THE MASTERCLASS LECTURE?**

The objective of this masterclass is to work on who you are as a leader, alternatively also on who you'd like to be as a leader. This means that you don't need to be a business leader per se to attend this masterclass as, at the end of the day, we are all leaders of our own life.

The process aims at taking a deep dive into yourself while observing what emerges from the lens of others. This is an opportunity to see yourself from a different perspective. A moment to awaken your curiosity through various senses. Leaving the cognitive thinking aside in order to tune in to your intuition, feelings, and emotions.

A gap might occur between the way you see yourself and the way others see you. If so, what is this telling you? What can you learn from it? And finally, what do you choose to do about it?

A genuine opportunity to share and receive!

Curiosity, playfulness and vulnerability are more than welcome.
